**THE SILVER OAKS
+2 CBSE PROGRAM**

THE WORLD BEGINS WITH YOU

16 YEARS OF BUILDING VALUE AND LIFELONG LEARNERS

Silver Oaks believes in nurturing the inner core of each child. We believe that competence is important to live but character defines who we are. In our journey to nurture young minds, we build purpose, values, courage and attitude first while we work on their skills and confidence.

For sixteen years Silver Oaks has been raising value - driven learners. Standing tall and bright, with their eyes set on their vision and heart full of values, these young acorns are growing taller to be mighty oaks themselves. As they prepare for excellence in their careers and life, we help them discover, learn and explore new facets to themselves, every day. For us, that is the true purpose of education.

THE WORLD IS WAITING, MAP YOUR WAY FORWARD.

The Silver Oaks + 2 Program anchors itself on an inside-out educational approach while understanding the critical demands of the modern age. In a curriculum that has been designed to build value-driven learners and leaders, we help them direct their dreams to growth and success.

Our program makes every minute relevant, significant, challenging and engaging.
